

How to install Clink on Windows

[Clink](#) is a powerful command-line editing utility for Windows.

1. Download the latest ZIP file from <https://github.com/chrisant996/clink/releases>.
2. Uncompress it to C:\opt\clink.
3. Start cmd.exe and run:

```
C:\opt\clink\clink_x64.exe autorun install  
echo @echo off>%LOCALAPPDATA%\clink\clink_start.cmd
```

Now, whenever cmd.exe starts, Clink is invoked automatically.
